

DRAWER STYLE PARTS CABINET

RACK ENGINEERING DIVISION, LLC

DRAWER STYLE PARTS CABINET

The versatile Drawer Style Parts Cabinet can be customized for specific shapes and sizes of the stored spare parts. Each drawer can be fitted with compartments and dividers for a quick visual of parts on hand. The cabinet is mobile and easily rolls to the work station where it is needed and is designed with safety locking features to prevent drawers from opening during movement. The ergonomic height of the cabinet provides an additional work surface and overall great accessory for the work environment.

ABOUT US

Rack Engineering Division, LLC specializes in the manufacturing of racking and storage solutions that are heavy duty and constructed to endure high capacities and tough industrial environments. Rack Engineering Division, LLC was originally founded in 1935 in response to an industry need for cost effective solutions to storage and handling problems for raw materials and tooling while helping customers save time and space by optimizing workflow. Since this time we continue to solve high capacity storage challenges with a quality product supported by a wide network of distributors and integrators throughout North America.
