

PRESS BRAKE TOOL CART

RACK ENGINEERING DIVISION, LLC

PRESS BRAKE TOOL CART

The Press Brake Tool Cart provides a portable, ergonomic solution for storing and handling punches and dies.

With conveniently organized tooling, the Press Brake Tool Cart allows operators to transport their tools efficiently throughout the production floor while optimizing floor space. Each tool cart has configurable shelves for American/European tooling with up to 500 lb capacity, and is equipped with two locking swivel casters and two rigid casters for ease of mobility.

STANDARD FEATURES

- Up to 500 lbs capacity per shelf
- Adjustable and removable UHMW lined tool separators and holders.

SUPPORTED TOOLS

- American Precision Style
- Bevel Tang Style
- Bystronic
- European Precision Style
- New Standard
- Wila
- Wila Trumpf Style
- Wilson
- Schroeder

ABOUT US

Rack Engineering Division, LLC specializes in the manufacturing of racking and storage solutions that are heavy duty and constructed to endure high capacities and tough industrial environments. Rack Engineering Division, LLC was originally founded in 1935 in response to an industry need for cost effective solutions to storage and handling problems for raw materials and tooling while helping customers save time and space by optimizing workflow. Since this time we continue to solve high capacity storage challenges with a quality product supported by a wide network of distributors and integrators throughout North America.
